OA was awarded a 5-year grant from the National Telecommunications and Information Administration to establish a coordinated state broadband information program. Since 2009 and continuing through 2014, **MOBroadbandNow** will collect and verify broadband data and info; publish state and regional broadband maps tracking accessibility, speed and provider availability; establish regional technology planning teams and develop strategic broadband outcomes; build relationships with internet provides and community stakeholders; and provide technical assistance.

Higher Ed was awarded a $4.9M grant from the Broadband Technology Opportunities Program to establish or expand 23 public computer centers in areas serving vulnerable populations. Higher Ed will collaborate with six community colleges to launch the expanded services. The centers will be "one-stop technology centers" for populations underserved by broadband internet. Funding will provide 600 new workstations and 130 more computers in 19 new computer centers and 4 upgraded centers. Centers will be located on campuses, in workforce training centers, education centers and even in a mobile unit. Funding for the MDHE project will end during FY 2014.

Division of Purchasing and Materials Management - Surplus Property & Fixed Price Vehicle Program
SECTION 5.055

Budget Book Page 191& 208

This section includes funding to operate the federal surplus property program and the fixed price vehicle program (appropriated in separate line items). Federal surplus property is acquired by the state at no cost (other than transportation) and then distributed to state agencies, cities, counties, schools, not-for-profit health and educational activities, homeless assistance providers, and SBA 8(A) program participants. Expenses of the program are recouped through service charges paid by receiving agencies.

The fixed price vehicle program acquires low mileage vehicles and construction equipment from the Federal government and resells the same to state agencies and eligible entities. This program is a self-sustaining program that does not have any actual cost to the State.

Budget Reserve Required Transfer
SECTION 5.255

Budget Book Page 525

If the balance in the Budget Reserve Fund at the close of any fiscal year exceeds 7½% of the net GR collections for the previous fiscal year, the excess amount is transferred to GR unless the excess is the result of direct appropriations made by the general assembly for the purpose of increasing the balance of the fund. If the balance in the fund at the close of any fiscal year exceeds 10% of the net GR collections for the previous fiscal year, the excess amount is transferred to GR. For purposes of this section, "net GR collections" means all revenue deposited into GR less refunds and revenues originally deposited into GR but designated by law for a specific distribution or transfer to another state fund.

If the sum of the ending balance of the Budget Reserve Fund plus any amounts owed the fund in any fiscal year is less than 7½% of the net GR collections for the same year, the difference is transferred from GR to the Budget Reserve Fund by the 15th day of the succeeding fiscal year.

Central Services Cost Allocation Plan
SECTION 5.265

Budget Book Page 542

This section authorizes the transfer of funds from various state funds to GR for the purpose of reimbursing GR for services provided those funds by the Office of Administration, Department of Revenue, Governor's Office, Lt. Governor's Office, Secretary of State's Office, State Auditor's Office, Attorney General's Office, the General Assembly and the Capitol Police. OA analyzes relevant constitutional provisions, statutory language, fund revenue sources, etc. when determining the appropriate cost allocation per fund.

In FY 2014, the calculation method was changed based on the allocated costs on each fund's revenues rather than on expenditures. This change was made in order to make charges more consistent and equitable among the funds.
